

Open-IIT Data Analytics 2020-21

Introduction

Data analysis is an event where participants inspect, clean, transform, and model data with the goal of discovering useful information, informing conclusions, and supporting decision-making. The participants will have to design a working model and submit its report. The participants will also have to come up with a presentation later to attain victory.

Procedure

After registering for the event, participants will have to come up with a working model, along with a well-defined report attached with it. Later, the participants must present their presentation, through online mode.

Judging Criteria

The participants will be graded based on their Model, Report and Presentation.

Timeline

1. Last Date for Registration – 14th March 2021
2. Release of Problem statement – 6th March 2021
